NDEBUMOG's Strategic Objectives

To strengthen community-based structures for transparency and accountability. Through targeted actions, NDEBUMOG will mobilize and empower communities to take practical steps to eliminate corruption in public expenditure through budget tracking, sensitizations, mobilization, trainings, alongside, anti-corruption campaigns and promotion of inclusivity and participatory governance.

For effectiveness and long-term sustainability, as at September 2023, NDEBUMOG has established 30 affiliated women groups, spread across seven states in Nigeria, including convening Nigeria's Civic Space Protection Alliance (NCSPA) and a Think-Tank.

NDEBUMOG increases public awareness on relevant laws and policies of combating corruption in the private sector.

Most private sector players lack information on laws and policies that relates to fiscal governance, as well as, procedures for doing business with government. In addition, private sector players have, often, been reported, as willing payers of bribes, without evaluating negative impacts of such vices on the business environment. NDEBUMOG seeks to improve business practices and principles for combating corruption in public-private activities. Small, medium and large businesses in Nigeria faces, almost daily, pressure to pay bribes to do business with government. Unfortunately, they are in a weak position to resist such pressures.

NDEBUMOG has established effective framework for monitoring of political parties financing and tracking the use of state administrative resources during campaigns by candidates.

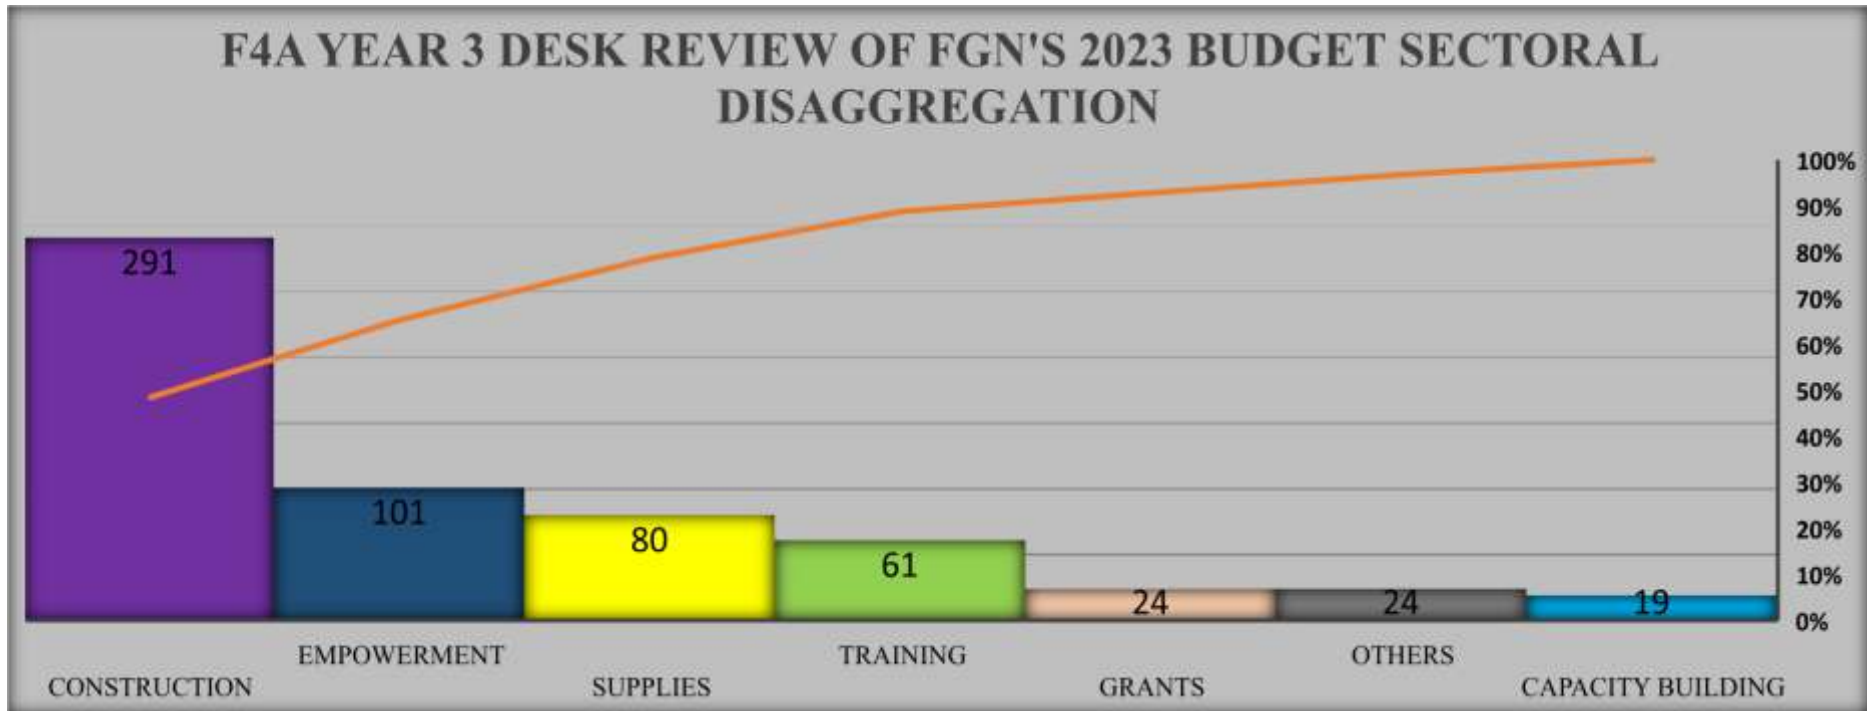

Transparency by Political Parties and election financing is critical in the democratization processes, as well as, ensuring good governance. Money in politics and Political Parties financing, if not tackled, poses serious risks, such as, uneven playing field, which gives some actors undue advantage over others. Those, who donate funds could, equally, influence politicians, seeking for rewards through contracting, bids and favourable policies for their private interests. Use of public funds to fund partisan political campaigns breeds political corruption and state capture. This include abuse of state (administrative) resources during campaigns by political parties and political office holders.

NDEBUMOG'S work reduces risk of state capture (and political corruption) through citizens demand for political finance transparency. Empowerment of citizens to carry out their constitutional mandates and obligations of safeguarding public resources by ensuring monies are not used to bias outcomes of elections by political parties. The public, therefore, must be at the forefront of any reform that reverses trend towards state capture. Being a situation, where monies are wrongly used by politicians to buy their way into public offices and in return, serves their personal interests.

NDEBUMOG enhances transparency and accountability in the extractive industry. Over the years, NDEBUMOG, has developed experience in promoting transparency and accountability in extractive industries through extensive involvements and engagements with Nigeria Extractive Industries Transparency Initiative (NEITI). As part of the strategies for the implementation of NDEBUMOG's strategic plan, we will implement actions that will constantly promote transparency and accountability in the oil sector and gas sector. Before now, citizens, civil society organizations and other stakeholders were unable to effectively participate in promoting transparency and accountability in extractive industries, due to lack of information, capacity, and political risks to do so. It is from this background that NDEBUMOG, hopes, to continue interventions across Nigeria's extractive chain.

NDEBUMOG through partnership and collaborations with Bureau of Public Procurement engages and builds capacity of stakeholders (communities, schools, government agencies, contractors, and consultants) in public procurement processes, particularly, in understanding Nigeria's Public Procurement Act. These activities shall reinforces NDEBUMOG's anticorruption campaigns and tracking of IFFs through collaborations with Economic and Financial Crimes Commission (EFCC), BPP, NEITI, OAGF, alongside, other ACAs and anticorruption CSOs/Coalitions/Network and alliance building.

NDEBUMOG empowers women and marginalized groups through sensitizations on agricultural and extractive value chains, including, empowerment of women and communities through livelihood programs, which enhances their sustainable livelihood, mobility for self-empowerment and budget tracking of public expenditures that empowers women and communities generally.

Please note:

- NDEBUMOG is embarking on these projects/programs tracking as part of deepening Nigeria's democracy.
- This desk review will add value in expanding knowledge based of additional women in understanding public expenditure and related expenditure in extractive value chains through a capacity building, with economic empowerment tool from this desk review for self-empowerment of women through knowledge of expenditure line items that empowers people directly, with opportunities to use other line items, aside empowerment for effective service delivery for their immediate communities.
- This is part of NDEBUMOG's contribution for the development of Nigeria's society/ communities, consolidating our institutional commitment to democratic inclusion and fiscal inclusion, geared at engendering sustainable development and democratic consolidation in Nigeria. Every citizen should pay attention to fiscal inclusion as a democratic right, without waiting for any organisation to beckon on them to do so!
